

**603012**

**PRODUCT DESCRIPTION:**

<b>Name:</b>	<b>Wall shelving set</b>
Code-No.:	<b>603012</b>
Construction:	Stainless 18/10
Dimensions:	W 1200 x D 355 mm
Weight:	approx. 10 kg
Capacity:	approx. 120 kg per shelf

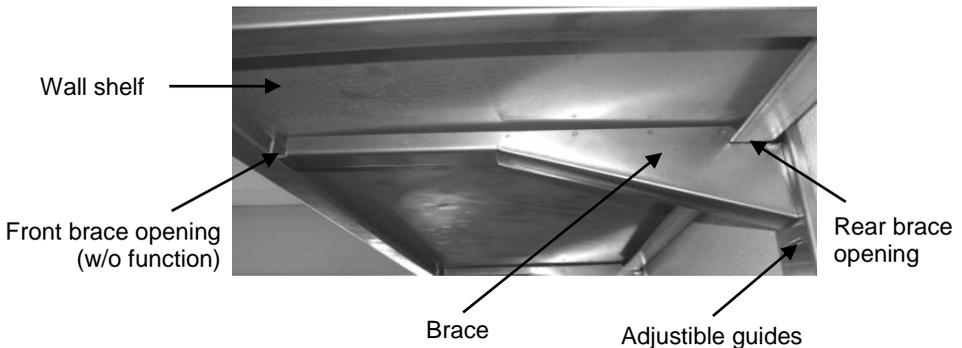

**DELIVERY CONTENTS**

- 1 pair of adjustable guides
- 8 x screws M8
- 8 x pegs
- 2 pairs of braces
- 2 x wall shelves

## INSTALLATION:

1. Unpack the elements and check that everything is present. Remove all packaging material.
2. Before you assemble the wall shelf, check the properties of the wall you want the shelf to be mounted on. The wall should be strong enough to bear the weight of the shelf with its maximum load.

## Side view

3. Fix both adjustable braces to the wall using the pegs and screws included.
4. Keep in mind the distance between openings in the wall shelves, in order to match up properly with the adjustable braces.
5. Put the braces at the proper height in the adjustable guides.
6. Place the shelves on the braces and insert them into the rear brace opening.

## NOTE!

**The front opening in the braces is a by-product of the production process and has no functional importance.**
