Product description

Name:	Standing ashtray
Code No.:	860008
Material:	Stainless steel; Inner waste container: galvanised steel
Design:	• Colour: stainless steel • Inner waste container removable with hinged handle • hole: Ø 45 mm
Dimensions:	W 210 x D 210 x H 574 mm
Capacity:	11 litres
Waste chute opening:	W 155 x H 100 mm
Weight:	2.5 kg

List of parts

- 1** Lid
- 2** Ashtray
- 3** Inner waste container
- 4** Waste chute opening
- 5** Base

Positioning

- Unpack the standing ashtray, remove the packaging material according to the environmental regulations.
- Insert the inner waste container into the base of the standing ashtray. Place the ashtray and the lid on the base.
- Position the standing ashtray in the selected place.

Emptying and cleaning

- Regularly empty and clean the standing ashtray.
- In order to facilitate emptying and cleaning, the lid and ashtray are easily detachable and the inner waste container is equipped with handle.

- To empty the standing ashtray remove the lid (1) and dispose of its content (2).
- To empty and clean the inner waste container (3) remove the lid and the ashtray from the base (5).
- Use the hinged handle to remove the inner waste container (3) from the base (5) and empty it.
- Clean the inner waste container (3) with warm water with mild cleaning agent. Then dry the inner waste container (3) and reinstall it in the base.
- Clean the base and the lid (1) of the standing ashtray with soft, moist cloth.
- Do not use any abrasive cleaning agents which may damage the surface of the standing ashtray.
- Next, place the ashtray (2) and the lid (1) on the base of the standing ashtray.
